REMEMBER the old elastics in hose support-ters—lasted no time? That's the kind of elastic all other makers still have to use in corsets—they have no other.

Nemo elastic fabrics-Lastikops Webbing and Lastikops Cloth-are pet-ented Nemo inventions, used only in Nemo Corsets.

They are partly elastic, partly non-elastic; needle doesn't cut the rubber strands—they don't "give out," like all other elastics, but will outwear the corset.
